DESERTED UPON THE PRAIRIE

MINERS TAKEN FROM HOME BY SOLDIERS

Left in Destitute Condition in Barren Spot of Colorado—Salvation Army Acts Part of Good Samaritan.

Syracuse, Kan., June 11.—A special train carrying ninety-one deported miners from Victor, Colo., in charge of fifty-six Colorado militiamen, reached a point on the main line of the Santa Fe railroad a few rods over the Colorado state line to day and the miners were deserted upon the prairie, the train bearing the troops then returning west. At the point where the men were set down there is no eating house nor railway station and the men are practically destitute.

As the train departed half a dozen soldiers fired a volley into the air to intimidate the men. While the miners were deciding what they would do the sheriff of Hamilton county, Kan., with forty armed deputies, arrived on the scene and ordered the miners back to Colorado. After a long tramp they reached Holly, Colo., where they were furnished food by the Salvation army. Despite the emphatic command of Lieutenant Cole, officer in command of the train guard, that the miners were not wanted in Colorado, the men after eating started overland for Lamar, Colo.

The deported Colorado miners are at Holly to night, just across the Colorado line. They were notified this afternoon that a special train would be sent to take them all to Denver, but have decided to await instructions from the officers of the Western Federation as to their future movements. All the miners were guests of the mayor of Holly at dinner to day.

Sheriff Brady notwithstanding instructions received from Topeka kept his force of deputies at the state line until late this afternoon to prevent miners coming across. The Colorado authorities will not be allowed to dump their deported men into Hamilton.

Cripple Creek, Colo., June 11.—Order having been restored in Teller county, Sheriff Bell to day largely reduced his force of special deputies.

Since the recent deportations and following hegin of many strikers to avoid arrest and incarceration there remains in the county jail about one hundred and twenty-five prisoners against whom criminal charges will be filed. About a hundred are in the Victor armory and Cripple Creek mining exchange hall, many of whom are marked for deportation.

SHERIFF MADE MISTAKE.

Topeka, Kan., June 11.—Governor Bailey has notified his office here that he will be back from St. Louis to morrow to take charge of any developments that may arise from the action of the Colorado authorities in dumping deported miners in this state. No trouble is expected, however.

Sheriff Brady of Hamilton county was notified this afternoon that he should not take any further aggressive action against the Colorado miners so long as they obeyed the laws of the state and conducted themselves properly. Kansas officials are united in the opinion that Sheriff Brady made a mistake in sending the men back, as there is no law to warrant his action.

TARGET PRACTICE.

Considerable excitement was caused to day by firing heard in the hills after Major McClelland and a company of soldiers and deputies had left for Clyde station. It was reported that another battle with miners was in progress. Investigation proved that the firing was caused by deputies indulging in target practice and no fight had taken place.

While no action has been taken toward recalling the troops, General Bell says they will not be needed much longer, as the civil authorities have control of the situation, and people are looking forward to a speedy end of military rule.

All day long deputies searched the hills and there are now confined in the bull pen about twenty-five men. Ten of these are marked for immediate deportation.

The committee of safety states to night it has extremely damaging evidence against a number of persons connecting them with the Independence dynamite outrage, and it is likely some important evidence will be introduced at the trial.

General Bell said this afternoon he has indisputable evidence that will convict a number of union men for the murder of the non-union miners killed in the Independence explosion. "We have between thirty-five and forty men in the bull pen who will swing for this crime," said Bell. The citizens' committee to day made the significant mistake of recommending for deportation some of the men who had been sworn in as deputies. Nearly all the union men remaining at alliance headquarters after yesterday's deportation, numbering forty, were taken to the county jail to day. The mine owners say they will be charged with various grave crimes.

The anti-union campaign inaugurated here has been carried to Victor, where the citizens' alliance is obtaining the signatures of business men to a boycotting agreement.

BRUTAL MILITIAMEN

Various Persons Assaulted by Soldiers Who Deported Union Miners.

Denver, June 11.—A special to the Times from Lajunta, Colo., says: "One of the militiamen engaged in the deportation of miners while in this city struck Santa Fe Ticket Agent Backrack over the head with a six-shooter, inflicting a very bad scalp wound, and threatened to kill him.

"C. L. Seely and M. M. O'Neill were brutally treated by militiamen when they passed through for the state line. Seely is a newspaper correspondent and endeavored to get an interview with some of the militiamen, but they walked him off the platform at the point of rifles. O'Neill, a business man, was standing on the platform when five militiamen attacked him, pushing him and striking him with their guns, and because he would not run to get out of their way he was beaten, thrown into the waiting room and put under guard."

PEABODY'S OPINION.

Denver, June 11.—When asked what he thought of the protest of the Kansas sheriff against the intrusion of the deported Colorado miners, Governor Peabody said:

"Kansas cannot prevent a man from coming into the state, but may throw him out if he does not become a good citizen. Just as we did. But if those deported miners are sent back to Colorado," the governor continued, "God help them. I do not believe, however, there are enough constables in Kansas to drive them back to Cripple Creek."

Deputies to day found on Infernal machine in the home of W. B. Easterly at Altman. Easterly is supposed to be in Denver. A member of the court of inquiry claims to have evidence sufficient to hang five and possibly more. He claims the court has unwarranted a startling condition of affairs.

RECEIVED TELEGRAM

What President Roosevelt Will Do in Case of Appeal From Miners Not Known.

Washington, June 11.—President Roosevelt to day received a telegram from W. D. Haywood, secretary of the Western Federation of Miners, urging him to institute an investigation into the present serious condition of affairs in the Cripple Creek mining district of Colorado. Beyond the mere statement that the telegram had been received and that no answer yet had been sent of it, no official information is obtainable at the white house. What action, if any at all, the president may take is not even intimated.

At least twice heretofore within the last six months the president has been requested to interfere in the Colorado troubles, but declined, after mature consideration, because he had no legal power to take action in the matter. It is regarded by those in close touch with him to be unlikely that the president will interfere in any way with the action of the constituted authorities of the state of Colorado.

Washington, June 11.—President Roosevelt to day accepted on behalf of the government a bronze statue of Benjamin Rush, the eminent physician and statesman, and signer of the declaration of Independence. The unveiling ceremonies took place in the presence of persons representing the American Medical association and officials of the government and their friends. The presentation was made by Dr. J. C. Wilson, of Philadelphia. President Roosevelt's acceptance was contained in a brief speech in which he called attention to the growing tendency toward specialism and warned against forgetfulness of the duties of citizenship.

MINERS TELL THEIR STORY

SITUATION IN CRIPPLE CREEK REVIEWED

Places Entire Responsibility for Lawlessness Upon Mine Owners, Citizens Alliance and State Government.

Denver, June 11.—The executive board of the Western Federation of Miners to day issued a statement regarding the situation in Cripple Creek. In reply to statements made by Gen. Sherman M. Bell and Secretary C. C. Hamlin of the Cripple Creek district of the mine owners' association. The federation declares the strike originated in the failure of the mine owners to live up to their own written agreement for an eight-hour day, minimum daily wage of \$3 and no discrimination against union men. At the beginning of the present trouble "Manager MacNeill of the Standard mine at Colorado City peremptorily discharged forty-five men, members of the Western Federation of Miners, for no other reason than that they had become union men," says the statement.

"To day the only questions involved are the enforcement of the eight-hour day, the right of men to organize in unions and to prevent discrimination against union men of all kinds."

The federation places the entire responsibility for lawlessness connected with the contests upon the mine owners, the citizens' alliance and the state government and quotes judges and others as concurring with their view.

The statement then reviews at length the events of the week at Cripple Creek and reiterates the statement already made by the miners' officials that the marked photographs of miners referred to by General Bell were for the purpose of publishing a scab list. The statement also pronounces as absurd the allegation that the miners were not allowed to vote on the question of a strike.

"Absolutely no deaths have occurred during the contest for which the Western Federation of Miners can or ought to be held responsible," continues the statement. "Some fifteen men were killed in the Stratton Independence mine through the incompetency of the men employed and the culpable negligence of the management. These men were unfamiliar with the work and were such as this mine and other mines in the district have been compelled to employ at the mine owners' employment agency.

"We are unfortunately forced to abide by the acts of unbridled military despotism that is driving our members from pillar to post. Their fortitude under the circumstances is the marvel of the age and shows that the Western Federation of Miners is composed of the highest type of American citizenship."

The telegram to President Roosevelt asking him to investigate conditions in Colorado is appended to the statement.

ARE READY FOR EMERGENCY

MORE AMERICAN SHIPS NEAR TANGIER

Battleships Illinois and Missouri May Be Sent to Morocco Capital—The Question of Indemnity.

Paris, June 11.—Information has been received from Lisbon concerning the plans of the American battleship squadron. Rear Admiral Barker expects to leave Lisbon June 16 for Gibraltar, where the squadron will remain until the Morocco incident is settled. On the arrival there of the Illinois and Missouri the squadron will consist of six of the most modern battleships, besides two squadrons of cruisers and gunboats now at Tangier. Although Admiral Barker does not expect that necessity will arise of taking the battleships to Tangier, yet he will remain at Gibraltar for the purpose of meeting any possible contingency arising at Tangier. The present force there is considered ample to impress the Moroccan government with the necessity of securing the release of Perdicaris and Varley, but if disorders occur ashore among the natives, the battleships may go to Tangier. They have an equipment of about 2,400 men, which would give them a large landing force, if necessary for the preservation of order.

It is also foreseen that a claim for indemnity against Morocco may have to be settled after the Perdicaris incident is closed. This indemnity covering redress for the indignity upon the prisoner and the heavy expense involved in sending ships to Tangier. Although no information has been received concerning the claim, officers of the squadron anticipate that its collection may require the continued presence of American ships in Moroccan waters.

A NEW ORGANIZATION

Fish and Game to Be Looked After and Depredators Punished.

Aroused by the dastardly act of dynamiting the waters of Morgan lake, a number of gentlemen whose names are appended have formed an organization which will be bound together and will make every effort to detect and punish all violations of game laws. Persons known to own seines will be watched and the waters protected as far as possible. A gentleman remarked yesterday that while Illinois once supplied a large fraction of the inland fish of the country, her output was pitifully small now, owing to the reckless disregard of the fish and game laws.

This preamble is self-explanatory. This organization shall be known as the Jacksonville Rod and Gun club, having for its object the strict enforcement of all laws pertaining to fish and game. We pledge ourselves to prosecute every known violation of the law to the fullest extent, and will give rewards and employ detectives to apprehend every offender.

QUIET TIME ON RAILROADS.

It has been common talk among the railroad men the past few weeks of the slump in business, especially in the freight department, although the passenger men complain that there is little doing just now. St. Louis fair travel is just coming into full swing and the summer emigration to the northern resorts has not begun, and while the local passenger business does not fluctuate from season to season, the long distance tickets sold now are much slower than during any other season. This is also the slack time for freight business and the roads are and have been for some time cutting down their expenses by removing all clerks and help not absolutely required to keep up the records, and railroads do not wait two or three months to cut down expenses when business gets slack; it doesn't take them more than a day or two, but when business picks up again they recall their help in as short a time.

At present there is a surplus of freight cars, but they will soon be used when grain begins to move, as it will in a few weeks. The oats and wheat will be threshed soon and the hay will begin to move in some of the southern counties and the break in the slump of freight business, which always comes at this season of the year will be broken.

WAS WASTING AWAY.

The following letter from Robert R. Watts, of Salem, Mo., is instructive: "I have been troubled with kidney disease for the last five years. I lost flesh and never felt well and doctored with leading physicians and tried all remedies suggested without relief. Finally I tried Foley's Kidney Cure and less than two bottles completely cured me and I am now sound and well." Sold by J. A. Obermeyer, City Drug Store.

For sick headache take Chamberlain's Stomach and Liver Tablets and a quick cure is certain. For sale by all leading druggists.

\$5,000 FOR CEMENT WALKS. Griggsville, June 11.—This city has just made arrangements for an \$5,000 bond issue for the purpose of building cement sidewalks. The municipality in the past has built over two miles of walks. The work is done by the city itself and is performed at a minimum cost. It is now proposed to lay a walk to the cemetery, which is more than a mile north of town.

On account of the nearby location of the biggest cement plant in the United States, at Hannibal, Mo., the cost of sidewalks to cities in this section is reduced to a minimum and several municipalities are making extensive preparations. Hannibal is already well supplied with cement walks and Perry, an inland town six miles from here, has made preparations to build over a mile of walks.

Jacksonville, Ill., Aug. 24, 1901.—For twelve years I have suffered from sweet diabetes and have spent hundreds of dollars with various doctors, with but little benefit. I was recommended to try a bottle of Texas Wonder, Hall's Great Discovery, and will cheerfully testify to the public that it did me more good than all things else put together and am altogether another man. I have persuaded many of my friends to try it.

An Easy Time For Mothers.

Zoa Phora Relieves All Pain and Suffering and Makes the Road for Mothers Smooth.

Trial Bottle Free to Every Woman.

The freedom and relief from pain and suffering that Zoa Phora has brought to women during childbirth alone is enough to render it the greatest blessing of the age to women. In addition to this it cures all irregularities of the sex, displacements, suppressed and painful periods, leucorrhea, piles, kidney, bladder and liver troubles and regulates the changes of life. Zoa Phora makes the change from maidenhood to womanhood safe and easy and is a matchless remedy for young girls during this critical period of their lives.

The women of America endorse and praise Zoa Phora. All women can secure perfect health and happiness who will use Zoa Phora. All who have used it are now rejoicing in these blessings as their words of praise and gratitude prove. The following letter is only one of thousands which we receive:

"Mrs. C. H. Clark, Box 365, Lake View, Mich., says: 'I wish to say a few words of praise for Zoa Phora, as it is certainly the best medicine I have ever used for women's troubles. I have suffered with leucorrhea for seven years, and I also felt causing displacement, from which I suffered for five years. I had a six months' birth, which nearly caused death, and ever since I have been sickly.'

"Last Christmas one of Dr. Penzance's books, 'Advice to Women,' came within my reach, and so highly recommended Zoa Phora, that I decided to try a bottle, and have found the very best of results. Before trying it I gave birth to a little girl, and she is strong and smart, and I am in the best of health I have had for over seven years, all from the use of Zoa Phora. I will say anyone who is troubled in this manner or expecting confinement should take Zoa Phora, and it will certainly be of great benefit to them. I know it makes childbirth much easier than without it.'

Write the Zoa Phora Co., Kalamazoo, Mich., for a free trial bottle and copy of their Medical and medical book, 'Dr. Penzance's Advice to Women.' The doctor will give gladly free special advice when needed. Zoa Phora is for sale at \$1.00 a bottle by all druggists.

WHY MEN GROW WEAK.

It is Usually Due to a Wasting of the Most Vital Elements of the Body, Which Destroys the Whole of the Bodily Forces.

It makes young men feel old and it cuts off the usefulness of middle-aged and old men long before their allotted time, resulting in premature decline and decay. It robs the blood of all its richness, exhausts the body of its animating powers, and saps the very life itself from the brain and nerve centers. Dr. Chase's Blood and Nerve Food acts at once upon this impoverished condition of the blood, brain and nerve forces, stopping the drain and replacing the run down and worn out tissues with the same material that has been wasted. It fills the shrunken arteries with pure, rich blood, which increases the weight in sound, healthy flesh and muscles, that give you strength, and the brain and nerves with fresh, vital fluid, that forces new life and vigor into every portion of the body, building up the entire system and transforming the run down into a type of perfect manhood. Weigh yourself before taking it. Price 50 cents, five boxes \$2.00. The Dr. Chase Co., Philadelphia, Pa.

IF YOU HAVE DYSPEPSIA READ THIS.

The old way of taking popsin, bismuth, etc., to cure dyspepsia is all wrong. They may be put up in tablets or in liquids, the result is just the same. The object is to create artificial digestion, but this does not make a cure. Stop taking the popsin, etc., and have your dyspepsia or indigestion back again. People use cocaine or opium for nervous troubles and sick headache, it does not cure. Stop taking the drug and the pain and distress return. The only Common Sense Method is to drive out of the system the cause of dyspepsia and sick headache by cleaning the stomach and bowels and at the same time using a medicine that will act upon the liver. This forces through the glands of the stomach the digestive fluid that nature intended. In this way you cure dyspepsia. The medicine that cures dyspepsia by this method is called Dr. Gunn's Improved Liver Pills. Druggists sell these pills at 25c a box. It only takes one pill for a dose. For sale by Leo P. Allcott.

SUSTAINED INJURIES

Cadie Funk of This City and William Richardson of Orleans Are Victims of Peculiar Accidents—Are at Our Saviors Hospital.

Cadie Funk is suffering at Our Savior's hospital as the result of a peculiar accident sustained last Saturday, a week ago. He was in the attic at his home on West Lafayette avenue, when he stepped upon a loosely nailed board, which gave way, letting him fall upon a lower board, striking it with his knee. He thought nothing about the injury until it began to be troublesome and finally caused him so much pain that he had to be taken to the hospital Friday. An examination showed that the knee cap had been split. It is thought that an operation will be necessary.

Confined in the same hospital is Will Richardson, of Orleans a friend of Mr. Funk. Mr. Richardson was at a party near Orleans about six weeks ago when he stepped outside the door of the house, and being unfamiliar with the surroundings, fell into an open cellar way. The force of the fall rendered him unconscious, but upon recovering consciousness he went about as usual until he was compelled to give up. He was brought to the hospital here Saturday, where an examination disclosed a cracked rib and an extensive injury to one of the kidneys. The injury is a serious one.

FUNERALS.

STEELE.

The funeral of Miss Jane Steele was conducted from the Baptist church at Nortonville Friday, June 10. Rev. W. P. Hart officiating. There was a large attendance of friends and relatives to pay tribute to the deceased, who, during a residence of more than fifty years amongst them, was highly esteemed by all who knew her. "Aunt" Jeanie Steele joined the Youngblood Baptist church in 1861. Rev. W. P. Hart receiving her into the church, and ever since she has lived a consistent religious life.

The floral offerings were indeed in harmony with the esteem held for the deceased and a noticeable feature was that the friends decorated the grave of the mother of "Aunt" Jeanie, who was also buried in the same cemetery.

Many friends from Jacksonville were present: Mr. and Mrs. William Ferguson and son, Mr. and Mrs. W. T. Spires, Mr. and Mrs. William Fanning, M. J. Clorihan, Mrs. James Welborn, J. H. Davenport and Mr. and Mrs. James Boston.

M. F. DUNLAP HAS SOMETHING AT STAKE.

Quincy Journal: No man in the state of Illinois has more to make or lose at the Democratic convention to be held in Springfield next week than M. F. Dunlap, of Jacksonville. No Democrat in the state has a better reputation among Democrats than M. F. Dunlap; a stronger reputation for integrity and honor.

Mr. Dunlap is the manager of Hearst's campaign in Illinois. From time to time during the last few months he has been sending out to Democrats of the state statements showing how the various counties in the state have gone on the presidential question. These statements have not been faked up; they have not been raw guesses, but have been given out from Mr. Dunlap's headquarters as authoritative and official statements. And these statements have been so accepted by the Democrats of the state.

Mr. Dunlap's official statement is to the effect that Hearst has pledged to him over 950 delegates in the state convention to be held next week. We accept this statement precisely as Mr. Dunlap has made it.

Now then, this being the case, why shouldn't the Hearst men run the convention from start to finish? Why have any "entangling alliances" with either Hopkins or Harrison? Both the Harrison and Hopkins factions have been against us from the start on. Now, why cater to them? If the Hearst men have an overwhelming majority in the convention, why not use it and run the convention to suit the Hearst men?

Mr. Dunlap himself should be made the national committeeman, and some true-blue, rock-ribbed, Bryan Democrat should be made chairman of the state committee. Hopkins has no following among state Democrats. He is absolutely without their confidence.

If it should become necessary for any purpose to have an "entangling alliance" with anyone, by all means let us have it with Harrison. He is much to be preferred to Hopkins. Harrison is a sort of a Democrat, rather light in weight, and a self-seeker always; but he is much to be preferred to Hopkins, who is no Democrat at all.

FAIR DEBT.
St. Louis, June 11.—It is stated to night that while the world's fair management is ready and willing to make the first payment on the government loan as soon as it is due, it has been ascertained that to make it on the date named by the law, June 15, will be a physical impossibility. The reason given is not because the money will not be in the exposition treasury, but because it will be impossible until some time later to know just what collections for the last day are and what the government's share amounts to.

THE DEATH RECORD.

BRUNK.

Word was received late Saturday evening of the death of Thomas Brunk at his home near Franklin. He was about 77 years of age and for many years had been a respected citizen of his community. An obituary notice will appear later.

"And what was the thread of his argument?" asks the citizen who had not attended the political meeting. "Thread of it?" says the disgruntled partisan. "There wasn't any thread to it. It was all yarn."
